

# LIST OF PALM KERNEL PRODUCTS EXPORTERS

Compiled by: **RAZALEE SEDEK**

OCTOBER 1993

PORIM INFORMATION SERIES

ISSN 0128-5726

## PREFACE

Malaysia has led the world in terms of production and export of palm oil for the past two decades. Malaysian palm oil industry is now able to offer various types of processed palm oil, palm kernel products as well as palm based oleochemicals.

Another main downstream activity of the Malaysian palm oil industry is in the manufacture of specialty fats. Malaysia also produces palm oil finished products including soaps, shortening, vanaspati and margarine. Malaysian palm products are supplied to the world market according to desired quality at competitive price and with assured delivery.

To assist overseas palm products buyers, PORIM have compiled a series of comprehensive listing of palm oil exporters, palm kernel products exporters, oleochemical exporters and specialty fats exporters and these are published separately.

It is hoped that with these publications, buyers will be able to establish business contacts with Malaysian palm oil exporters and producers.
